

GOLDEN ISLES CENTER for
PLASTIC SURGERY
DIANE G. BOWEN, MD

February 1, 2005

To whom it may concern:

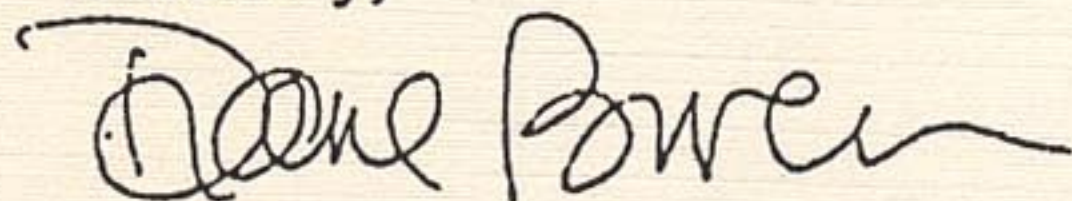

I would like to take this opportunity to highly recommend Billy Lawrence for a job well done! He served as the general contractor for my new office facility, Island Health, on Saint Simons Island. As we approached the building phase of the Island Health project, I was often warned about general contractors and told that I would have to be ready for lengthy delays and major cost overruns.

As we approached the bid phase, Mr. Lawrence came highly recommended by Dr. Carl Dohn and several others. He has experience in a wide variety of building projects both residential and commercial. The bidding process required that the contractors be bonded and Mr. Lawrence went to extra efforts to get bonded so that he could participate. When the bids returned, Mr. Lawrence was the winner based on a combination of time and budget.

During the building process, Mr. Lawrence was always available for consultation and made efforts to keep us updated on progress. He has a forthright demeanor and has the respect of his contractors. He established and maintained a firm construction schedule. Any delays we experienced were either weather related or were a result of my indecision about interior details. He was always patient with my questions and took initiative in finding and suggesting innovative products for the building finishes.

I wish you well in your building project. You will be blessed to have Mr. Lawrence as your contractor. I am always excited to show off our new office, so please call if you have any questions and we can give you a tour as well!

Sincerely,

Diane G Bowen, MD
